

THE ALFA OWNER INDEX

1971 THRU 1980

A Thank You

As must be obvious to the reader, this ALFA OWNER Index was monumental task to complete. Therefore some special thank yous are in order to the following people who made the project a reality; Ed and Shayna Geller of New Jersey for their first draft and original outline of the project, and Bernie and Diane Bennett of Texas for applying their skills as professional librarians to polish the index

and put it in the computer printout form seen here.

Without the effort of these members the index would still be a dream. Instead, the members of the Alfa Romeo Owners Club have before them a fantastic reference tool that unlocks the wealth of information stored in the pages of past ALFA OWNERS. I can't think of finer tribute to the quality of our club and it's members.

ALFA OWNER INDEX 1971--1980

This index covers all issues for the years 1971 through 1980. It is a semi-classified index. The first "General" section includes primarily material of a non-technical nature. Some technical items may be indexed here when they are of a general nature or apply generally to a particular model or series of models. The "Technical" section is more strictly a classified index based on an indexing system setup by then technical editor, George Whitcomb and published in issue 1605. (i.e. volume 16, number 5)

The classification system generally follows the Alfa Romeo parts numbering system and begins with the engine block, power train, valve timing gear, fuel feed system and so on thru the engine, driveline, suspension and brakes, chassis, controls, coachwork, accessories, trim and electrical devices in roughly that order. Within a particular class, items are arranged by model or series with generally applicable information presented alphabetically within the class. YOU MUST USE BOTH THE NUMERICAL AND THE VERBAL DESIGNATION OF YOUR MODEL TO FIND ALL THE INFORMATION ABOUT IT. E.g. for a search of Giulietta articles, Search using the headings Giulietta; 101 series and 750 series cars. Three classes have been added one for special tools and proprietary products and one each for illustrations and photographs. These last two only include those illustrations and photos which include little or no text with them. If a feature article includes illustrations or photos it will include such a subdivision.

How to use the index. For specific technical information check the appropriate class or classes. E.g. if you have encountered hard starting problems, classes 04 Fuel Feed; 05 Engine electrical; and 65 and 66 Body electrical devices and wiring would be good places to check.

Note: in the "General" section of the index some technical information can be found. It does not hurt to check there for the information you desire.

Abbreviations have been used where a word frequently appears. "A-R" equals Alfa Romeo. Chapter names are the standard abbreviations frequently seen. A key for authors who appear frequently is included below:

KA -- Ken Askew GW -- George Whitcomb
 JB -- Joe Benson EW -- Evan Wilson
 JI -- John Ireland

SYMBOLS AND ABBREVIATIONS

L./ means letter written to the Owner by NCAM = National Convention and Annual Meeting

p. /v. ___ is the format for citing pages and issue of the Alfa Owner. E.g. ---- Alfa aeroengines -- Museo A-R. p.08-09/v.2304 This article is About Alfa aeroengines and the Alfa Romeo Museum. It can be found on pages 8 and 9 of volume 23 issue number 4.

Ordering Issues

So you want to dig into some back issues . . . that's no problem. All you have to do is send the issue's Volume Number, Issue Number and Date to: Mrs. Glenna Garrett, Alfa Romeo Owners Club, 2304 San Pasqual Valley Rd., Escondido, CA 92027.

Any back issue of the ALFA OWNER published prior to January 1982 will cost you \$1.00, OWNERS published after that date will fetch \$2.00 a copy (aren't you glad you renewed and didn't miss an issue). ALL BACK ISSUE REQUESTS MUST BE ACCOMPANIED BY CHECK OR MONEY ORDER FOR THE FULL AMOUNT OF PURCHASE. Prices includes postage and handling.

In the few cases of extremely rare months you will be sent a photo copy of the issue instead of an original.

All back issue requests must include your address typed or printed legibly.
